Em março de 2011 a revista Karting 1 fez um teste como motor Sudam 125. Os resultados não podiam ser melhores. Confirmam a matéria completa no link do título e o vídeo do teste no Youtube (<http://www.youtube.com/watch?v=hUMy2v5h034>).

To be perfectly frank, before we got our hands on a Sudam from IAME we knew we'd absolutely love it.

It's karting's best kept secret.

We always knew we'd love it!

She's a very pretty engine

...you should have an engine like the Sudam in your life...

There is nothing better in the world than experiencing a perfect driving machine

When a kart is right, it's beyond description

Being romantic about 'old style' engines has become a bit of a cliché! But when it's this good, who cares?

... for the South American followers of Karting1 – we salute you!

To be perfectly frank, before we got our hands on a Sudam from IAME we knew we'd absolutely love it. If you don't live in South America the chances are you have no idea what the hell a Sudam is. The truth is that you really should know about it because it's simply one of the finest kart engines still in production and raced today. **It's karting's**
